## Admission Information

To enter an undergraduate program in ASAUB, the applicant must satisfy:

- The university's general minimum requirement for getting admission.
- Minimum requirement for each of the individual program.

ASAUB admits students with the potential of pursuing higher education. It welcomes applications from the students regardless of their gender, religion, age, race, national origin, social background, marital or parental status and disability. It is also committed to the principles of widening participation and encouraging applicants from disadvantaged and underprivileged backgrounds. It may be noted that admission in some of our programs is very competitive and fulfilling the minimum requirement does not guarantee admission. ASAUB generally follow a policy of limiting the number of seats in a program which means that some students having eligibility often may not get admission.
